PROFESSIONAL EXPERIENCE

- 2020: founded the law firm Joslove Digital Law, built upon his prior experiences and dedicated to digital law.
- July 2018 – December 2019: **Vice President and General Counsel EMEA at C3.ai**, Paris, France. He was in charge of all legal matters in the EMEA region for C3.ai, a leading supplier of AI, IoT and big data applications. His principal activities were to negotiate digital transformation, PaaS, SaaS, software services and other agreements with customers and suppliers and to handle all data protection matters.
- January 1994 – June 2018: **partner at Franklin Law Firm** (formerly Salès Vincent & Associés), Paris, France. He created the TMT Department of the Firm and advised a French and international clientele with respect to digital transformation / AI / ML projects, data privacy and security, IT, outsourcing, e-commerce, telecoms, IP and encryption / export control legal issues.
- August 1989 – December 1993: **associate at Salès Vincent & Associés**, Paris, France. He had a general corporate/business law practice and built his experience in IT law.
- August 1986 – July 1989: **associate at Baker McKenzie**, Washington, D.C. He practiced international trade law.

EDUCATION

- 1986: **Harvard Law School** – J.D.
- 1983: **Universities of Kansas & Bordeaux** - B.A. Political Science.

CERTIFICATIONS

- 2020: **Massachusetts Institute of Technology** – MIT Certificate of Completion of online course on *Digital Transformation: From AI and IoT to Cloud, Blockchain and Cybersecurity*.
- 2020: **Coursera** – Certificate of Completion of online course on *Machine Learning for Business Professionals*.

ARTICLES AND SPEECHES

Beyond publishing a quarterly TMT newsletter while at Franklin, Mr. Joslove has written many articles and is a regular speaker at conferences all over the world. Recent examples include:

- Spoke on best contracting practices in smart infrastructure projects at the November 2019 Global Leaders Forum Conference in London
- Spoke on the topic “Are the GDPR restrictions on profiling compatible with the development of AI and Machine Learning?” at the June 2018 IFLCA Conference in Paris
